Quick operation guide
Preface

Thank you for using our recording pen

In order to familiarize you with the operation of the machine as soon as possible, we have provided a user manual with detailed contents, from which you can obtain knowledge about product introduction, use methods, system settings, safety precautions, etc.Before you use this product, please carefully read all the materials provided with it, which will help you better use this product.

We are very careful and rigorous in the preparation of this manual, and believe that the information provided in this manual is correct and reliable. If there is any omission, please forgive and welcome your correction.

If you find any problems in the use of the product, please contact us in time, thank you for your cooperation!

Quick guide

1. switch machine

(1) Power on: push the power switch of the recording pen from the "off" position to the "on" position, and it will start automatically

(2) Turn off: push the power switch of the recording pen from the "on" position to the "off" position

2. Start recording - stop (save)

(1) Start recording: start recording when the recording switch is pushed upward from the "save" position to the "recording" position (the red light is on when the recording enters, and the recording time starts to move on the screen at this time, indicating that the machine is recording)

(2) Save recording: during recording, when the recording switch is pushed down from the "recording" position to the "save" position, it stops and saves the current recording file

(3) Pause recording: in the process of recording, short press the "play" key. At this time, the red light starts flashing to indicate that the recording is paused. If you want to continue recording, short press the "play" key again. At this time, the red light is always on to indicate that the machine continues recording. The saving method is the same as (2)

3. playback

(1) Play recording: in recording mode, press "" to start playing the current recording fileplay

*Please do not use this product in extremely hot, cold, dusty or humid environment

*Do not let this product fall when using

*Please replenish the power when the power indicator is empty -- - ", or the power is automatically shut down due to low power

  Special notice: specially remind the user to operate carefully and back up the data separately. In case of data loss or careless deletion of the file on the machine, the company will not be responsible for it

*The company reserves the right to improve the product, product specifications and design changes, without notice!The pictures and text descriptions listed in this manual are for reference only, subject to the actual operation effect

*This machine has no waterproof function and should not suffer from splashes and drops

2、 Functional features

● new generation of digital high definition recording pen
High clear screen display of IPS is easy to operate

Zinc alloy die-casting integrated shell with high strength, falling resistance and impact resistance

● with Clock IC function

● recording files can be deleted on the machine

● high quality recording, long-distance recording (human ear can hear, machine can record)

● A-B repeat function

● monitoring function

- voice control function
- built in high fidelity speaker
- built in lithium battery
- MP3 play function
- power on password lock
- support for multiple languages
